

TALES HENRIQUE

FULLSTACK PHP
DEVELOPER

Tales Henrique, 34 years old and web developer since 2011. During these years as a front-end and back-end developer, I had the opportunity to develop myself as a team leader. Besides being able to deal with a fast-paced workflow, through these opportunities, I studied agile methodologies in order to find better ways of working to optimize time and delivery results. Through this, I had the opportunity to work as an agilist from 2017 to 2021.

KEY SKILLS

Software Development
Project documentation
Business model analysis
Problem resolution
Quality testing
Intelligent design
User research and training

WORK HISTORY

Summary of experiences related to web development

Tech Lead PHP

Suno Research | October 2022 - May 2023

In my role as a Tech Lead, I was responsible for leading and coordinating cross-functional teams, ensuring effective communication among team members and aligning efforts to achieve established goals. I actively participated in the strategic planning of projects, setting clear objectives, defining best practices, and making well-informed technical decisions. My technical expertise in various areas allowed me to guide the development team, ensuring the delivery of robust and high-quality solutions.

Full Stack Engineer

Bydrec | May 2022 - October 2022

In March 2022, I had the opportunity to join an American company, Third And Grove, to work on WordPress projects for various clients as a contractor.

During my time at the company, I was responsible for challenging projects, working on all layers of development, from backend creation to frontend implementation. This experience allowed me to be involved in complete and scalable solutions, with a focus on excellence and delivering high-quality products.

Full Stack Developer

Agência 2B Digital | October 2021 - May 2022

After working on several projects in agencies, I returned to freelancing and managing my own projects while seeking new challenges. During this period, I became a WordPress specialist, having completed over 20 projects.

WORK HISTORY

Full Stack Developer

Universo DOC | June 2020 - February 2022

In June 2020, I embarked on a challenge with Universo DOC. After spending the last 3 years focused on agility, I rekindled my interest in development, which has always been a part of my daily life. I was responsible for the development, enhancement, and maintenance of the Universo DOC portal. Additionally, we worked on internal projects for clients and handled portal maintenance.

Front-end Developer | Scrum Master

OknGroup | June 2013 - June 2019

Between the years 2013 and 2019, I developed myself within OKNGroup. I started my career as a front-end developer, evolved into a Full Stack Developer, and eventually became a Scrum Master. As a Full Stack Developer, I gained extensive experience working with PHP and Javascript technologies. Throughout this experience, I developed expertise in leading teams and managing demands, while also providing excellent customer service.
